

WL Stick Datalogger Quick Installation Manual

Version: 1.0

Delivery Content

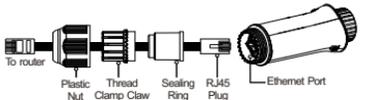

- 1 WL stick
- 1 Quick Installation Manual

1 Install

Install the network cable

Step1: Remove the "Plastic Nut", "Thread Clamp Claw", and "Sealing Ring" in turn.

Step2: Pass the network cable plug through the "Plastic Nut", "Thread Clamp Claw", and "Sealing Ring" (with opening) in the direction as shown in the figure below.

Step3: Fully embed the "Sealing Ring" into the "Thread Clamp Claw".

Step4: Connect the "RJ45 Plug" to the datalogger and tighten the "Plastic Nut".

NOTE

Due to limited space, only RJ45 plug without protective shell can be used.

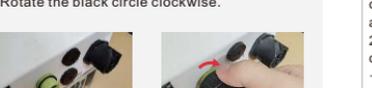

Install the datalogger

Connect the datalogger to the corresponding 4-pin COM port of the inverter. A Solis 5K inverter is used here as an example. Please follow the instructions below:

Install the datalogger:

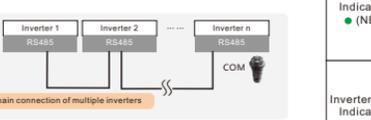

1. Insert the datalogger to the inverter COM port.
2. Rotate the black circle clockwise.

NOTE

Only rotate the black circle, not the silver cover.

4. If you need to collect data from multiple inverters, please follow the inverter user manual to establish a communication connection with the inverter using the RS485 communication cable in a "daisy chain" manner.

5. After the datalogger is installed on the inverter, if the inverter is powered on, you need to set the inverter slave address, the first inverter is "01", the second inverter is "02", And so on.

NOTE

1. The device must be installed away from the strong magnetic field produced by large electrical appliances such as microwave oven, refrigerator, telephone, metal walls, etc. Otherwise, the communication quality may be affected. It may also be affected by lightning storm.

2. The [RESET] button on the back is used for connection.

- Short press will send the data immediately.
- Long press for 5 seconds will enter into config mode for connection router.
- Long press for 10 seconds will reset the connection.

The three constantly ON LED lights indicate the datalogger is working normally.

LED indicators	Description	LED Status	Meanings
Internet Indicators (NET)	Shows the connection status between the datalogger and the server.	Flashing	Trying to connect with server
		ON	Successfully connected
Inverter COM Indicators (COM)	Shows the connection status between datalogger and the inverter.	Flashing	Trying to connect with inverter
		ON	Successfully connected
Power Indicator (PWR)	Shows the power supply status of the datalogger.	ON	Datalogger is powered up normally
		OFF	Datalogger is powered up abnormally

NOTES

WL Stick automatically obtains IP by default. If the network cable supports automatically obtains IP, please jump to "3" for APP registration. If network cable do not support obtains IP automatically, please continue to follow "2" for IP settings.

2 LAN configuration

Step 1: Enter 10.10.100.254 in the web browser, open the following configuration interface. Enter Username **Admin** and Password **123456789**.

Step 2: Select the "WAN port setting" and "Static IP". Enter IP address, Subnet mask, Gateway address, DNS server address for network cable. Then click the "Save".

Step 3: The following interface pops up to indicate that the setting is successful. Otherwise please try LAN configuration again.

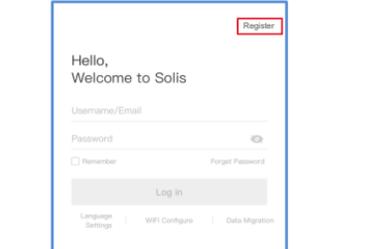

3 Soliscloud APP

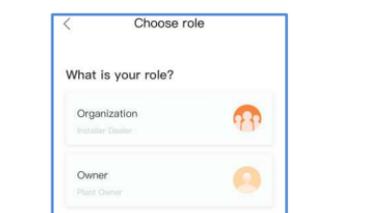

Step 1: Use you phone to scan the QR code to download and register the Solis Cloud APP. Or directly download from APP Store or Google Play Store by searching "Solis Cloud".

Step 2: Click the "Register".

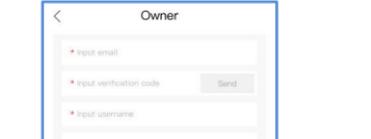

Step3: Select Owner or Organization for email address registration.

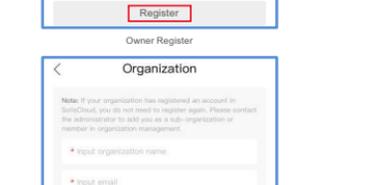

4 Create Plant

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

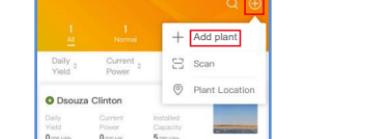

Step 3: Confirm the plant information. Click "Create plant".

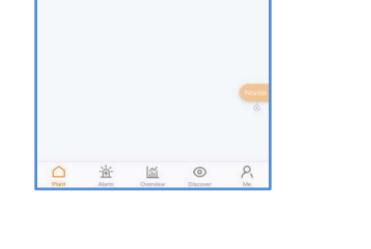

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Use your phone to scan the QR code to download and register the Solis Cloud APP. Or directly download from APP Store or Google Play Store by searching "Solis Cloud".

Step 2: Click the "Register".

Step 3: The following interface pops up to indicate that the setting is successful. Otherwise please try LAN configuration again.

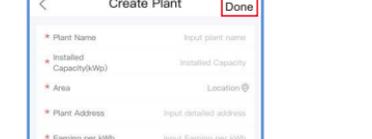

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

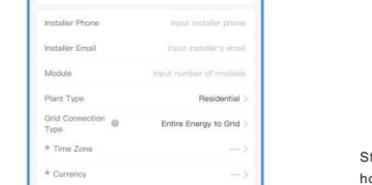

4 Create Plant

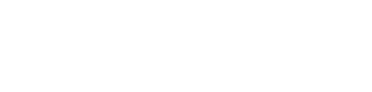

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

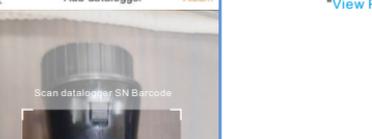

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

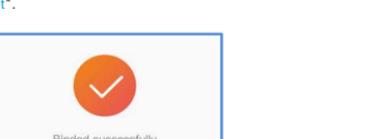

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Step 1: Enter the main page of Solis Cloud APP, click "+" at the top right corner and select "Add plant".

Step 2: Input the information of the plant as required. Then click "Done".

Step 3: Confirm the plant information. Click "Create plant".

Step 4: Click "View plant" to enter the plant homepage, then add the datalogger.

Contact Please contact us if you have any technical problems in terms of the product. Please provide the following information as well:
